45. How to implement *default* or *NotFound* page?
46. How to dispatch an action on load?
47. What is the difference between React context and React Redux?
48. Why are Redux state functions called reducers?
49. How to make AJAX request in Redux?
50. What is the difference between component and container in React Redux?
51. What is React lazy function?

React HOE: (Hands-on Experience)

- 1) Hooks
- 2) API Calls (Mock api) -> methods
- 3) CRUD operation (filter(checkbox, dropdown, search button))
- 4) Redux
- 5) Context

- 6)Form Validation -> formik, yup
- 7)ToDo-> hooks -> useRef, useState
- 8)Routing
- 9)Files - doc, sheet, audio, video uploading and downloading concepts
- 10)Auth login - (google,facebook, github)
- 11)Firebase - authenticate
- 12) MaterialUI / Tailwind css

FrontEnd example projects for portfolio:

Order management
E-commerce Application
Travel Blog
Recipe App
Hospital Management
Expenses tracker

Once frontend practice is over, switch those mentioned topics to the FSD Project.

Ultimate Task	
1	Personal Portfolio Website & add projects
2	Get ready for the placement - Technical Development(Interview based)
